

Career Opportunity: Crop Consultant

CropPro is an independent consulting company based out of Naicam, SK. Our core business is crop consulting and variable-rate mapping for farmers in east-central Saskatchewan. Our staff works in a unique business culture with flextime hours, performance bonuses, excellent holidays, and working out of a subsidized home office. CropPro has a well established customer base and reputation.

Duties: This full-time permanent position will involve crop scouting and recommendations for weeds, disease, insects and fertility for our crop monitoring services. Soil sampling, tissue sampling, on-farm trial support, and Veris/RTK mapping support will be required for our precision ag services. Excellent computer skills required to utilize our GIS, controllers, and record keeping software. The successful candidate will work from a home office and service farm clients generally within a 60 mile radius of Naicam. Must be willing to work overtime during busy season. Must work responsibly with minimal supervision.

Qualifications: Degree, Diploma, or Certificate in Agriculture (with agronomic study base). Willing to get CCA or agrologist designation. Farm and agronomic experience is an asset.

Salary/Start Date: Dependent on qualifications and experience but includes performance bonus. Please forward salary expectations with resume. Start date is flexible but not later than May 1, 2010.

Applications: Closing Date for Applications is March 15, 2010
Only those applicants selected for interviews will be contacted.
